RE: **Approval of Products/Services for Listing on the GSA APL**

The Office of Management and Budget (OMB) issued M-19-17, which requires Federal Agencies to procure only qualified products and services that are compliant with OMB policy, NIST standards, and supporting technical specifications, such as those listed on the GSA Approved Products List (APL), when implementing HSPD-12 and ICAM into their environment. The procurement of approved products and services facilitates the government-wide objective of a federated and interoperable ICAM segment architecture, ensuring compliance, consistency, and alignment of commercially available products and services with the requirements and functional needs of government ICAM implementers.

Accordingly, the FIPS 201 Evaluation Program is pleased to inform you that the following product/service has passed evaluation against all applicable Testing Requirements. Please see the attached document, which summarizes the specific parameters of the approval (e.g., product/service profile and the product/service tested). Your product/service will now be listed on the APL as shown below. If there are any errors in the listing information, please notify us within five (5) business days of receiving this letter.

1 Category - PIV Cards

1.1 APL Certification Number

- 1514

1.2 Product/Service Information

Organization Name:	ZTPass
Name of Product or Service:	ZTPass PIV Applet v2.0 FIDO2.1 with NXP Chip P71D600 on OMEC Smart Card Inc.
Category:	PIV Card
Part Number:	B9F1
Hardware Version:	D600
Software Version:	N/A
Firmware Version:	J3R6000373181200
ATR:	5A 54 50 61 73 73 53 6D 61 72 74 41 75 74 68

1.3 Document History

Status	Date	Comments
Creation	09/24/2025	Approval of the product.

1.4 Restrictions:

The procuring agency should review the NIST PIV Card Application Validation List to determine which mandatory and optional capabilities the PIV applet on this card supports. CMVP Notes: When installed, initialized, and configured as specified in Section 11 of the Security Policy. Module Description: The Module, validated to FIPS 140-3 overall Level 3, is a single chip module named P71D600 implementing the GlobalPlatform operational environment (Card Manager (ISD/SSD)) and the applications: NXP IoT applet v7.2.22 and NXP SEMS Lite applet v2.0.2.11. Firmware versions: [Platform ID J3R6000373181200 and ROM ID B3375FE9B5508BC4 and Patch ID 0000000000000000 and NXP IoT applet v7.2.22 and NXP SEMS Lite applet v2.0.2.11]. See CMVP for more details.

Approval of the above product/service indicates your cooperation with the Program and successful evaluation against a rigorous, comprehensive set of functional requirements derived from government-wide specifications. Testing included evaluation against the International Organization for Standardization (ISO) and the American National Standards Institute (ANSI) published standards.

Given the strategic government-wide importance of the APL, the scope and extent of evaluation performed on your product/service, and the rigor with which it was tested, the Program would like to acknowledge the noteworthiness of the approval and listing. Your product or service will now be available to all Federal Agencies for procurement.

Please note that continued listing on the APL requires ongoing compliance with all applicable requirements, including those that may be added or amended over time. A listed product/service can become non-conformant for various reasons, including but not limited to:

- Failure to pass testing against new and revised requirements before the effective date of the new/revised requirements.
- Problems discovered in your listed product or service (or class of product or service) that are not addressed within the time frames specified by the Program.

Refer to the applicable Agreements and Program documents for specific details regarding ongoing compliance, including severity levels and remediation timeframes. Listed products and services that fall out of conformance will be removed from the APL and added to the Removed Products List (RPL).

If you have any questions, please feel free to contact me.
